

Employment Plus

Wage subsidies.
How can my business benefit?

**Receive up to \$10,000*
to support your business
and your staff when you
employ job seekers, ready
to enter the workforce.**

Financial incentives are available to encourage businesses to hire and retain new employees.

Can my business access a wage subsidy?

To be eligible your business must:

- be a legal entity with an Australian Business Number (ABN)
- have not previously received a subsidy for the same job seeker
- not be a Commonwealth, State or Territory government agency

An employer will not be eligible for a subsidy until the Wage Subsidy Agreement has been approved by Employment Plus.

What jobs qualify for a wage subsidy?

Many different job roles can qualify, at a basic level, the relevant position:

- needs to be ongoing and sustainable
- needs to comply with minimum employment standards according to Commonwealth, State or Territory law
- cannot be commission based, or involve subcontracting or self-employment
- cannot displace an existing employee

There may be further conditions a position needs to meet – we recommend you contact Employment Plus to find out if a position is eligible.
